

Trauma (Critical Illness) Insurance

Trauma Insurance provides a lump sum payment upon the diagnosis of a defined critical illness. Proceeds are typically received on a tax-free basis.

As a business that manages claims on behalf of clients, we know that Trauma Insurance is the most frequently claimed insurance cover in recent times.

Importantly, the insurer will not determine how the proceeds of the claim are used. During a time of need, trauma cover can provide financial freedom by assisting with the expense of medical treatment and rehabilitation, mitigating the loss of income from reduced work hours, allowing care for the non-working spouse or simply removing financial pressure during recovery.
